Alert Tone & Light**

**D-15
Intracom**

A Highly Reliable Intracom...For Clear Convenient Communications

The D15 Intracom provides quality communications for any single channel application.

Designed for:

Fast food operations, Security Guard units, Dry Cleaners, Liquor Stores, Convenience outlets, front desk to stockroom and more!

Point-to-Point Communications:

- Drive-Thru
- Security Windows
- Convenient order filling
- Information needs
- Security check points
- Petroleum Stations/C-Stores

Specifications:

Size:

5¹/₁₆" D x 3³/₃₂" H x 8⁹/₃₂" W

Power Requirements:

14 VAC @ 12 VA provided by a 120 VAC 50/60 Hz plug-in transformer

Power Output:

5 watts "talk" channel
2.5 watts "listen" channel

Features:

- Touch panel switches
- Red, yellow, and green indicators for power-on, standby, presence alert, talk and listen.
- Repeating Alert Tone with automatic cancel when talk switch is pressed.
- Separate talk, listen and alert tone volume level controls
- Reliable solid-state switching
- Separate, internal microphone for clear voice reproduction
- Automatic audio actuation upon vehicle detection or call origination.
- Advanced circuitry to reduce R.F.I. and noise pick-up
- Accepts external music and automatic message source
- Busy indication if second D-15 is interconnected and is in use
- High-impact console

- Quick Disconnect cable and rear wire cover
- Terminal strip and decal
- Easy installation instructions

Versatile Options

- Interconnects with another D15 so either can talk/listen to the same speaker/mic.
- Footswitch
- Initiate alert with 3M Vehicle Detector or any switch closure
- Flexible microphone
- Monitor speaker (2 levels)
- Handset
- Menu Clipboard
- Phone jack
- 230 VAC transformer

The D-15 Intracom combines easy installation and operations in an economical system with 3M reliability and service. The system interfaces with the 3M Wireless Intracom.

Plus:

Many other 3M Speaker, Microphone and switch options.
