Answers you always wanted. Profits you never expected.

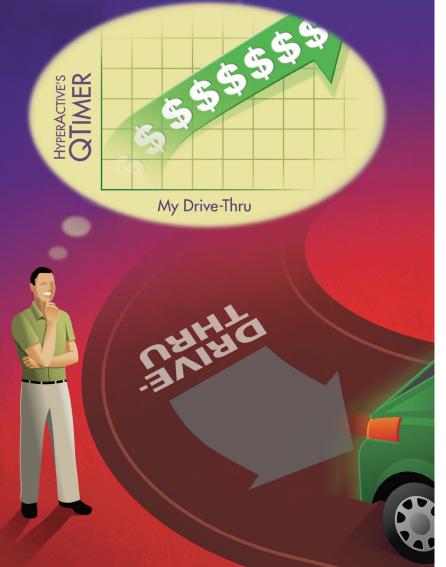

The more you know, the more profitable you can become. Which is the whole idea behind QTimer®, **the ultimate management tool for your drive-thru**.

QTimer's POS interface gives you unprecedented knowledge and control over your stores. Unlike other timers, QTimer not only tells you **what** is happening in your drive-thru but **why** it is happening – giving you the instant information you need to improve your performance… and your profits.

What can QTimer do for you?

- Real-time POS integration gives you a snapshot of the complete picture

- It enables your crew to focus on speed and accuracy by tracking and comparing performance towards goals

- It identifies problems so that you can take immediate action

- Its "above-store reporting" makes this information available to you anywhere and at anytime

How does QTimer do it?

QTimer's ability to follow the flow of vehicles in your drive-thru and be integrated with your POS **provides you with answers that no other solution can provide.** Since our "Enterprise Reporting Portal" captures vital information in near real-time, you are able to gain an overall view of your entire organization's performance, whenever you need it.

Get QTimer and get better answers, higher efficiency, more profit.
